Specialisms	Advice, Development , Engineering, Procurement, Construction, Project management, Service & Realisation
Description	Hotel Moxy is a 3-star hotel with 159 rooms. The hotel is built in an area with high earthquake sensitivity. Huge water pipes run under the building to provide a number of companies in the area behind with water. All this results in a construction that is heavily reinforced. Due to the high quality of the construction, the raw concrete works in the rooms and public areas have been delivered as final visible work.
Commissioning party	van de Ven
Height	18m
Number of levels	4
Surface area	5500 m²
