Description	For the Overhoeks urban development in Amsterdam Noord we realised two apartment complexes, Overhoeks Blocks J&K. Block J is a 28-metre building with 84 apartments, and Block K a 25-metre building with 77 apartments. Special 30-meter-long tunnel formwork were designed to improve speed and efficiency. Thanks to our expertise, tunnel formwork could be used to cast the slabs for Block K's organically shaped floors.
Commissioning party	Dura Vermeer
Height	28m
Number of levels	8
Surface area	25000 m ²
